The Wrong Man.

He was a peaceable-looking man, with a quiet-looking horse attached to an unattractive sleigh, with unostentatious bells. He wore a wide-rimmed hat and a shabby coat, as he drove easily down the South Eastern hill, journeying from Bucks county to the land of Northampton. He was observed by a fellow of the species rough, whom much loafing had made impudent, and who lifted up his yawn:

"Say! hat, where are you going" with that man?"

"Verily, I journey beyond the river, friend," mildly responded the Quaker, "and thither goeth my hat."

"Hold up and take a fellow along, can't you?" called out the man of wrath.

"Nay, friend, my business and inclinations forbid it."

"I'll soon fix that," and the fool ran forward and jumped on the runner.

"Verily, friend, if these insinuations upon getting into my vehicle I will even help thee!"

and the man of peace reached out a right hand as resolute as an oyster dredge. It caught the youth around the throat worse than a four-year-old diphtheria, jerked him into the sleigh, and slammed him down among the straw, where he got tramped on by a pair of No. 13 cowbirds until he thought he had been caught out in a shower of pile-drivers. Finally he got a kick that lifted him clear over the side of the sleigh and ran his head into the bank by the roadside, where he divided down in a heap, like a gum shoe discouraged by a street car, and murmured, as he rubbed his ensanguined nose in the snow:

"Who'n blazes'd a ever thought the cast-iron man'd go around with steam up, and disfigured as a blinded old Quaker!"—*Easton (Pa.) Free Press.*

A Cure for Diphtheria.

Diphtheria is a disease which springs from the growth of real fungus on some of the mucous surfaces of the system, more generally of the throat. From the local parts affected it spreads to the whole body, affecting the muscular and nervous systems, vitiating the lymph and nutritious fluids and producing paralysis.

As soon as the vacterium or fungus appears in white patches on the throat it should be no more neglected than a bleeding gash or a broken arm, and there is almost as little need of a fatal termination in one case as of the other. It has been found by actual experiment, both in and out of the human system, that this vacterium is killed by several drugs, the safest and most certain of which is chlorine water, diluted with the addition of from two to four times the volume of water. This wash is used in the throat, when swallowed, and is pretty certain to arrest the disease. A well known physician in this city who has pursued this treatment for fifteen years has found it effective almost without exception, and has in that period often broken up the disease in localities where it had raged violently and defied treatment.

Prior to its use he lost three cases out of six, but has since used it with scarcely a failure during the above mentioned period. The recent great epidemic of Ziemssen on the practice of medicine gives the highest place to this method of treatment.

To keep the patient well housed and warm, with additional flannel clothing, if necessary, and to keep the system well nourished and the bowels open, are matters of nursing often neglected; but, with care in these respects, and early application of the remedies above suggested, there is no need of the disease proceeding to a fatal termination, or even to the debilitating illness and painful cauterizations which go together in its latter stages.—*Springfield Republican.*

MISCELLANEOUS.

It is now an acknowledged fact that Consumption can be cured. It has been cured in a very great number of cases (some of them apparently desperate ones) by Schenck's Pulmonic Syrup alone, and in others by the same medicine in connection with Schenck's Sea Weed Tonic and Mandrake Pills, one or both, according to the requirements of the case.

The old supposition that "Consumption is incurable," for many years deterred physicians from attempting to find a remedy for that disease and patients afflicted with it recoiled themselves to death with an effort being made to save them from a doom which was considered inevitable.

Dr. Schenck himself was supposed at one time to be at the very gate of death, his physicians having pronounced his case hopeless and abandoned him to his fate; he was cured by the aforesaid medicines and afterward enjoyed uninterrupted good health for more than forty years.

Thousands of people have used Dr. Schenck's preparations with the same remarkable success. Schenck's Almanac, containing a thorough course of Consumption, Liver Complaint, Dyspepsia, &c., can be had gratis of any druggist, or of J. H. Schenck & Son, Philadelphia. Full directions for the use of Schenck's medicines accompany each package.

Schenck's Pulmonic Syrup, Sea Weed Tonic, Mandrake Pills are for sale by all druggists. *J. H. Schenck & Son.*

—Those who disbelieve in virtue because man has never been found perfect, might as reasonably deny the sun, because it is not always noon.

—Mr. George Wilson, in the employ of Messrs. Bates & Greene, while binding on a load of hay, one day last week, fell upon the frozen ground, injuring himself quite seriously, bruising his limbs, and fracturing his right arm near the elbow. He is recovering quite rapidly, under the care of Dr. Waterman.

—N. Winston & Sons enjoy a first class trade in dry goods, groceries, etc. They are pleasant and honorable gentlemen to deal with.

—Fun for all—Don't fail to attend the Wallace Dramatic entertainment, from Baraboo, Wis., on Saturday the 19th inst.

MILTON JUNCTION.

—The roads begin to be somewhat passable again, and there is considerable activity in consequence. Fuel, feed and fodder probably never were at so low an ebb before in this locality.

—The meetings of the week of prayer have been continued alternate nights, viz: Mondays, Wednesdays and Fridays. The attendance has been quite fair.

—Representatives of a very large tobacco establishment of Springfield, Mass., came here last week with the view of making this a shipping point, but got strayed away among the growers north and west of the river, and as they all do, were duly captured and have located at Edgerton for buying and packing the present season. The crop so far as they have bought ranges from 5 to 7 cents per pound.

—Rev. Mr. Wardner preached to a larger congregation on Saturday morning at the new church than he has before since he became their pastor.

—A. P. Bond was seen going toward the cigar shop, a day or two since with some of the boys, which confirmed the report that he had a new son at home.

—We are indebted to Mrs. S. C. Carr for a nice sample of Mascatel raisins, raised in California, and sent here by Dr. Ezra Carr, Superintendent of Public Instruction. The fruit is large and transparent, rich in color and flavor, being cured by a new process known as the Deltz process. The Doctor sent a five pound package to each of the Messrs. Carr and to H. W. Maxon, Esq.

—Dry wood is selling on our streets for from \$4 to \$4.50 per cord.

—M. J. Holmes, Esq., is taking in logs again at 30 cents a bushel.

—Mrs. J. A. Palmer starts for Springfield, N. Y., Thursday of this week, visiting her daughter, Mrs. Susie Borden, where she will make it her home at present.

—Mr. Geo. Button started out with his Wholesale Notion Wagon again last week, after being laid up with bad roads over seven weeks.

—The Morpion house has preceded quite a lively appearance the past week, whenever the trains were in from the north or west with the host of visitors to the Capital going and returning.

JOHNSTOWN.

—At the annual meeting of the Farmers' Fire Insurance Company, of Johnstown, held on the 1st inst., the following gentlemen were elected directors for the ensuing year: James Hadden, Rush Beardsley, G. D. Hall, P. B. Cook, T. H. Austin, Volney Wood and John Haight. James Hadden, Jr., was elected treasurer. The directors elected Rush Beardsley president, and G. D. Hall secretary. Mr. A. M. Carter received the appointment as the Company's agent.

—Mr. N. Cole was recently made happy by his wife presenting him with a fine boy to comfort him in his old age.

—The young people are making preparations to give an entertainment at a very distant day, of which due notice will be given.

—Since the improved condition of the roads, farmers are beginning to market their produce. Some go to Whitewater, some to Darien, while the larger portion make Janesville their place of market.

BRIEFLETS.

—It's snow use.
—It makes the coal men grunt.
—The nobbliest thing out—the roads.
—Read the Council proceedings, and see where the money goes.

—Lovers of fine music should remember the meeting of the Musical Club this evening.

—There was a lively dance at Concordia hall last evening, and nothing occurred to mar the enjoyability of the occasion.

—The theatrical boards are blank. Dillon threatens to show up by and by, but aside from that, gossip for the amusement lovers is scarce.

—Water Witch Engine Company No. 2 will indulge in their twenty-fourth annual ball at Apollo hall to-morrow evening. That they will have a good time, who will doubt?

—A hunt is being made for a gas leak on Main street. One who sat in the lobby of the Council last night facetiously remarks that there was a gas leak on River street also.

—There was a pleasant tea-party at the residence of Mr. and Mrs. W. B. Noyes, last evening. The affair though informal was declared most enjoyable by those who participated.

—The Young Men's Christian Association hold a meeting at their room at half-past seven o'clock this evening. Young men please take notice, and consider your selves invited.

—The one-legged rebel veteran who was arrested for canvassing the town for charity has been let loose and has gone forth to stumple the country promising never to set his crutch within the limits again.

—Inquiry has been made at the County Clerk's office for information concerning Palmer Kellogg, or his descendants, who moved from Hensburgh, Vt., in May 1845, and took up land in the vicinity of Janesville. Information concerning him or his can be left at this office.

—One of the Aldermanic board, who has done some most faithful work on various committees, now asserts that he will at some meeting not far distant, bring in a bill for services rendered, amounting to \$1,000. He thinks the boys ought to have a fair shake all around.

—A couple of young bloods at the Spence House last evening, thought it would be fun to pull the tail of a gentlemanly canine which was snugly snoring by the fireplace. The owner of the dog objected, and a small sized row was caused, which was speedily extinguished before any great damage was done.

—Ald. McKinney rises to explain. He says the reason why he introduced the repeal of the ordinance forbidding the sale of liquors in places of amusement, was that a certain concert saloon was running full blast without paying any license, and the city authorities did not seem inclined to close it up. He thought it therefore better to repeal the ordinance, and make the saloon take out a license, the same as other places.

—Those who delight to wet their whistles with Bethesda water will be interested to learn that last Monday Col. Dunbar shipped from the celebrated Bethesda springs at Waukesha, to L. C. Ames, of New Orleans, one hundred barrels of the healthful drink, and last Tuesday he shipped fifty barrels more to Cairo. The popularity which can cause such demand is indeed wonderful, but it is fully merited by its worthiness.

—The lecture of Rev. Jenk L. Jones on "The cost of an idea," given last evening at the Institution for the Blind, was listened to with much pleasure by an attentive audience. The lecture abounded in thoughts, illustrations and suggestions, most appropriate and inspiring to students. The vivid imagination displayed, and the sterling good sense shown in the treatment of the subject, were alike entertaining and instructive. The thanks of both teachers and pupils are heartily given to Mr. Jones.

—It would almost pay a man to live to eat, instead of eating to live, if he could always have as good a quality of flour as that furnished by Crossett & Clark. These enterprising gentlemen are outdaring their own record even, and the result of their labors is evidently appreciated by the hungry ones, judging by the increased demand for their brand. Their buckwheat flour is especially hard to beat. Their patent wheat flour deserves equally high praise, and all acknowledge the superiority of their boiled corn meal. When such goods can be obtained at the reasonable prices that this firm charges, there is no need of seeking further. They are good enough for anybody, either in or out of Janesville.

OLD PROB.

The mercury to-day stood at 7 o'clock at 26 degrees above and at 1 o'clock at 30 degrees above. Cloudy. One year ago to-day at corresponding hours, the thermometer indicated 6 degrees below and 13 above. News over the wires shows that the mercury reached 14 degrees above at Denver and 38 degrees above at Cleveland. At other signal stations the mercury ranged at various points between, the observations being taken at midnight.

WHO SHOT HIM?

About midnight, a young fellow rushed up to Dr. B. T. Sanborn's office and hastily woke him by rattling the door, and urging him to hurry up as he had been shot. An examination showed that a bullet had been lodged in his right hand, inflicting rather a painful though not serious wound. The young man refused to tell his name, or how he received the wound, beyond the simple statement that it was accidental, and that he lived in this city. After the bullet had been taken out and the wound dressed, he went his way, leaving the case surrounded by somewhat of a mystery. All sorts of surmises are of course offered as explanatory of the bullet-wound. The surest way for the curious-minded ones to ascertain all the facts is for them to quizzically interview any one they may meet, who bears about him the marks of a wound.

COUNCILISTS.

The City Dials Grind out a Goodly Grist of Business.—The Robinson Claim at Last Settled.—A Change in the License Ordinance.

There were no vacancies at the Aldermanic table last night. The journals of the last meeting having been read and approved, the usual bundle of bills and accounts was presented, and referred to the Finance Committee. The December report of the Police Justice was read and placed on file.

The Board of Education reported their expenditures for the last four months as follows: September, \$1735.10, October \$1810.91, November, \$3173.02, December \$3317.70, total, \$10,957.39.

Ald. Blount, of the Judiciary Committee, reported back on the bill of Dr. Wm. Horne, for costs in certain suits, and recommended that the same be laid on the table. It was laid.

On motion of Ald. Blount, the Clerk was instructed to give the proper notice for vacating Canal and Mill streets.

On motion of Ald. Lawrence it was ordered that a sufficient amount be transferred from the license fund to the judgment fund to satisfy the Harrison judgment.

The monotony of the session was broken up by Ald. Davies, who called up the bill of Dr. Robinson, for services rendered in superintending the building of the West Side Engine House and City Hall. City Attorney Carpenter being called on for his opinion, read the section from the charter, which he deemed to cover the case, and briefly stated that if Dr. Robinson was an Alderman at the time the service was rendered, and if said service was a part of his Aldermanic duties, he had no right to claim any recompense or reward. Precedents, so often cited, did not warrant any violation of the law, however numerous.

Ald. Davies urged Dr. Robinson's claims and spoke of the time and labor that he had put upon the task, and wound up by moving that an order for \$150 be drawn in his favor, which was seconded promptly by Ald. Fitzgibbon.

Ald. Blount objected. The charter most emphatically forbids any such action. Although a friend of Dr. Robinson he could not vote for what he deemed an illegal act. It was dangerous to open such a door. Every Alderman could present a bill for services rendered, in that case, as all had done more or less hard work. There would be no end to the bills. Dr. Robinson as chairman of the Building Committee, had no more authority, and was no more entitled to pay than any of the others.

On the suggestion of Ald. McKinney, B. B. Eldridge, who framed the opposing section of the charter, was called on to explain its meaning. He did not hesitate to say that it was framed to prevent any leakages in the Treasury and rings among Aldermen. Under its provisions Dr. Robinson had no legal claim on the city. Still as a matter of equity he ought to be paid as he had by hard work saved the city much expense.

Ald. Lawrence understood that the architect offered to superintend the building for \$30.

Ald. Davies said that they did not want to employ the architect because the funds were low at that time, and they thought they could do without the expense of a superintendent.

Ald. Judd said he was on the committee with Dr. Robinson, and deemed the services rendered by the latter entirely outside of his Aldermanic duties.

Ald. Lawrence could not see how any committee duties could be outside of Aldermanic duties.

Ald. Church thought the bill should be considered a matter of equity. Dr. Robinson had worked hard every day in the matter.

On motion of Ald. Fitzgibbon the previous question was carried cutting off all debate. The Mayor declined putting the main question as he deemed it illegal. He had reached that conclusion after hearing Mr. Eldridge's remarks. An appeal was taken on motion of Ald. Davies and was carried, Ald. Judd, Lawrence and Wilcox voting to support the chair. The main question, giving Dr. Robinson \$150 was then put and carried. Ald. Lawrence Blount and Wilcox alone voting in the negative. Ald. McKinney presented an ordinance repealing the ordinance forbidding the sale of liquors in places of amusement. Under a suspension of rules the ordinance was unanimously passed.

On motion of Ald. Davies, an order was drawn on the Wisconsin street fund in favor of Daley, Reed, & Rider, for \$240.

Under suspension of rules, a number of bills approved by the Finance Committee, were ordered paid, and adjournment taken.

COUNTY GOVERNMENT.

[Continued from First Page.]

The resolution was adopted. The chair appointed as that committee called for in the resolution.

Messrs. Carle, Slaymaker and McIntyre Mr. McIntyre

From committee No. 5, made the following report: Your committee No. 5, to whom was referred the application of Riley Enos to have his name changed to Harry Riley Enos, and by the last mentioned name he shall be hereafter known and recognized.

Sec. 2. This act shall take effect and be in force from and after its passage and publication in the official gazette.

W. J. McIntyre, J. W. Carle, Committee

The report was adopted and the order passed Mr. Nowlan

From special committee made the following report: The special committee appointed at the November meeting to inquire into the propriety of conducting a telegraphic communication from the county jail to No. 7 engine house, beg leave to report:

That they have carefully examined the matter, and find the expense of such communication will not be less than \$200. While your committee believe it would be of some value to the county, it would not, in their opinion, be advisable to take further action at present.

The report was adopted Mr. Slaymaker

From committee No. 7 made the following report: Your committee on public buildings respectfully offer the following report relative to the present condition of the buildings on the county poor farm:

For their better preservation the main house and asylum for insane persons, repainting seems to be necessary. The floors in two of the rooms of the former are nearly worn out, and should be renewed. In all other respects, both within and without, these premises presented an appearance of cleanliness and order very creditable to the superintendent.

The barn, however, is in a dilapidated condition, poorly serving the purpose for which it is used.

Repaired repairs to the roof have failed to prevent leaking. That portion occupied as a granary is little better than harbor for rats. The grain bursts out the rotten boards, and is wasted on the ground. A new barn is needed, and we respectfully recommend that provision be made for the erection of one.

W. J. STARK, S. H. SLAYMAKER, O. P. NOWLAN, Committee

The report was received and ordered placed on record.

Resolved, That the clerk of this Board of Supervisors be, and he is hereby directed to cancel, free of charge, all tax certificates which Rock county held against lots 1, 2, 3, 10, 11 and 12, in block 9, Rockwell's addition to Beloit, previous to the sale of said lots to David Merrill by said county.

The resolution was adopted.

The bond of W. A. Pickett, superintendent of the poor, was approved and ordered placed on file.

By Mr. Harvey

Resolved, That the sum of \$800 be appropriated to build a barn on the county poor farm, and that the committee on public buildings be empowered to let the contract and see that a suitable building be erected for the farm.

The resolution was adopted.

Amendment lost.

On motion of Mr. Menzies

The original resolution was adopted.

The chair appointed Messrs. Gardner, Decker and Thon

From committee No. 1 made the following report:

The committee on illegal taxes and tax certificates, to whom was referred the proposition of the McLean Manufacturing Co. relative to the purchase of certain lots in Mittmore's addition to Janesville, respectfully report that they have had the matter under consideration, and are of the opinion that the county should accept said proposition. We therefore offer the following resolution:
